PROFESSIONAL SUMMARY

I am a Fullstack Developer with 4 years of professional experience, including a year of dedicated full-stack development and a deep specialization in building scalable web applications using Vue.js. I have a proven track record in the Fintech industry, specifically with BTPN Syariah, where I focused on optimizing legacy systems for performance and delivering secure, user-centric solutions. I am adept at bridging the gap between frontend and backend to translate complex business requirements into seamless, end-to-end digital experiences.
